

## Reading Comprehension

## How Music Makes Us Feel

## A Read. Check (✓) the correct summary.

1

People all around the world enjoy music. Some music is fast, and some music is slow. Some music is high, and some music is low.

- a All music is the same.
- b Some people like music.
- c All music is different.

2

Music can help us imagine things, like animals. When the music is fast, we can imagine an animal running. When it's slow, we can imagine an animal sleeping. When it's low and slow, we can imagine an animal that is in danger.

- a Music helps us imagine many things.
- b Music helps us imagine animals only.
- c When music is slow, we feel sleepy.

## B Read and circle the correct words.
